DETAILED ACTION

Election/Restrictions

1. Applicant's arguments with respect to Election of Species Requirement, mailed June 28, 2007 have been fully considered and are persuasive. The Election of Species Requirement has been withdrawn.

Allowable Subject Matter

2. **Claims 1, 2, 4, 5, 7, and 10 (now respectively renumbered 1, 2, 4, 5, 6, and 3) are allowed.**

3. The following is an Examiner's statement of reasons for allowance:

The closest prior art teaches a solid-state image pickup device comprising a photoelectric conversion portion for generating signal electric charges in accordance with an amount of incident light; a plurality of color filters, a flattening layer formed on said plurality of color filters, and a plurality of condenser lenses.

However, the closest prior art does not teach or fairly suggest wherein a thickness of a projection or a recess on a surface of said flattening layer, provided on a region where color filters are adjacent to each other, is equal to or less than 0.2 microns; and wherein the condenser lens, has a shape to cause the incident light to avoid passing pass through a region of the color filters in which the two adjacent color filters in the first exposure region overlap each other and in which the two adjacent color filters in the second exposure region overlap each other, so as to

pass through regions of the color filters flatter having a uniform spectral characteristic, for condensing the incident light onto said photoelectric conversion portion.

4. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
